

# Terms of Use

Purchasing this set of graphic images entitles you to a single-user, non-transferable license for personal and limited commercial use. The purchase of this graphics set does not grant the buyer any copyrights. Jennifer Hier Designs retains the copyright to all graphics and images in the file.

## Personal Use:

These graphics can be used in your personal documents, lessons, and/or resources. My digital graphics must be used as a design element or part of a larger project or design. The graphic images themselves are not to be redistributed, shared, traded, or resold. The files are to be used by the downloader only.

When using these graphics, please make sure that your digital files are secured in a PDF or other secure format so that the graphics cannot be extracted and used by others.

## Commercial Use:

You are granted a limited commercial license with the purchase of this graphic/clip art package. You may use the graphic images for small-scale commercial products. If you intend to produce/sell more than 1000 copies of a product you may contact me for large-scale commercial license pricing. TPT and TN sellers are exempt from the 1000 copy limit.

When using my graphics in the production of products that you plan to sell or offer for free, you must provide credit to the designer using the provided button (included in the file) AND a link to my TpT store on the credits page of your product.

If you use my graphics in the design of a webpage or blog, you must include my button with a hyperlink to my store on the sidebar of the site.

Graphics may not be altered in color or any way other than size (see helpful hint below). When using these graphics, please make sure that your digital files are secured in a PDF or other secure format so that the graphics cannot be extracted and used by others.

These terms of use are subject to change at the discretion of Jennifer Hier Designs. Visit my website [www.earlylearningideas.com](http://www.earlylearningideas.com) to download the latest version of the terms of use.

## Helpful Hint (Translation: Please Don't Squish my Clipart):

To preserve the integrity of my graphics, please reduce and enlarge them proportionally. Many people are unaware of a simple trick/shortcut to maintain the proportion of graphics as you change their size. What is the simple trick? Simply hold down the shift key as you reduce and enlarge graphics.
